Hello. My name is Junko. I'm 15 years old and a third-year junior high school student. I'll tell you about my dream. I'm very interested in foreign cultures and really enjoy speaking English, so I want to work in a foreign country in the future. I want to study English at Joto High School, because it has many kinds of English classes. I think this is the best school for me.

But there is something I have to think about. Joto is very far from my house, so I have to get up very early and come home very late every day. This is a big problem for me. I can live near Joto away from my family, but my parents say I'm still too young and so I can't take care of myself.

Both of these ways have their own good points and bad points. I want to find the best way to enjoy my school life and study hard for my future dream.
