Hello, I am Naoki. I am going to tell you about an experience I had. We had a chorus contest in the school festival last summer, and had to choose a classroom leader. I wanted to be the leader because I was a member of the chorus club which got the first prize in Okayama. I am also good at telling my friends what I want them to do. However, Akira was chosen because he always listened to us. When he became the leader, he said that to enjoy singing was the most important for us. He listened to everyone. Then, all of us decided what to do and enjoyed singing. His style was different from mine. It was more important for me to tell my classmates to practice hard for winning the contest. I learned that there were different kinds of leaders.
